## COLOR SHADE

### METALLIC series

Elite Metallic    Royal Metallic    Iris Metallic    Misty Metallic

### GRANITE series

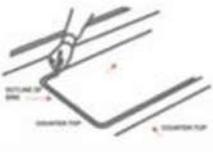

Ferris Granite    Classic Granite    Saffron Granite    Sandy Granite

## INSTALLATION

Top Mount    Flush Mount    Under Mount

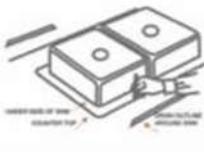

## INSTALLATION SINK

Trace the outline of the template and cut countertop according to templated outline using appropriate cutting tools. Template is for guide only. Use physical sink to ensure accurate cutout opening.

Clean sink flange and underside of cutout area of countertop, making sure that the area is smooth and free of grease.

Draw a line 1cm inside the sink outline.

Apply continuous bead of silicone caulk evenly on top of sink flange. Position and align sink over the countertop opening and press sink onto countertop. Turn bend end of mounting bracket to snug over the sink rim.

Locate the drill holes on the underside of the counter top, approximately 17mm from edge of the sink to be installed. Holes should be evenly spaced approximately 6" to 8" apart starting from every corner as shown in.

Wipe away excess silicone caulk with damp cloth. Connect drain and water supply according to manufacturer's instruction.

## DRILLING TAP HOLE

Invert the Sink, Use the marking to Drill the Hole with Wood Cutting Bit

*Thank  
you*
